Virtual Course During School Year

Complete this section if you plan on taking a virtual course to replace one of your seven on campus courses. Students can only have one on-campus virtual lab period each year. All other virtual classes will need to be taken off campus. Lake Brantley High School encourages students to use Seminole County Virtual School (SCVS) to take their virtual classes. SCVS employs local, highly qualified, and certified Seminole County teachers. This allows SCVS to work closely with LBHS staff to ensure students achieve success and stay on track for graduation.
